

OUR HISTORY  
FROM OUR ORIGINS IN THE THEATRE...  
LIGHTING THAT REALLY PERFORMS

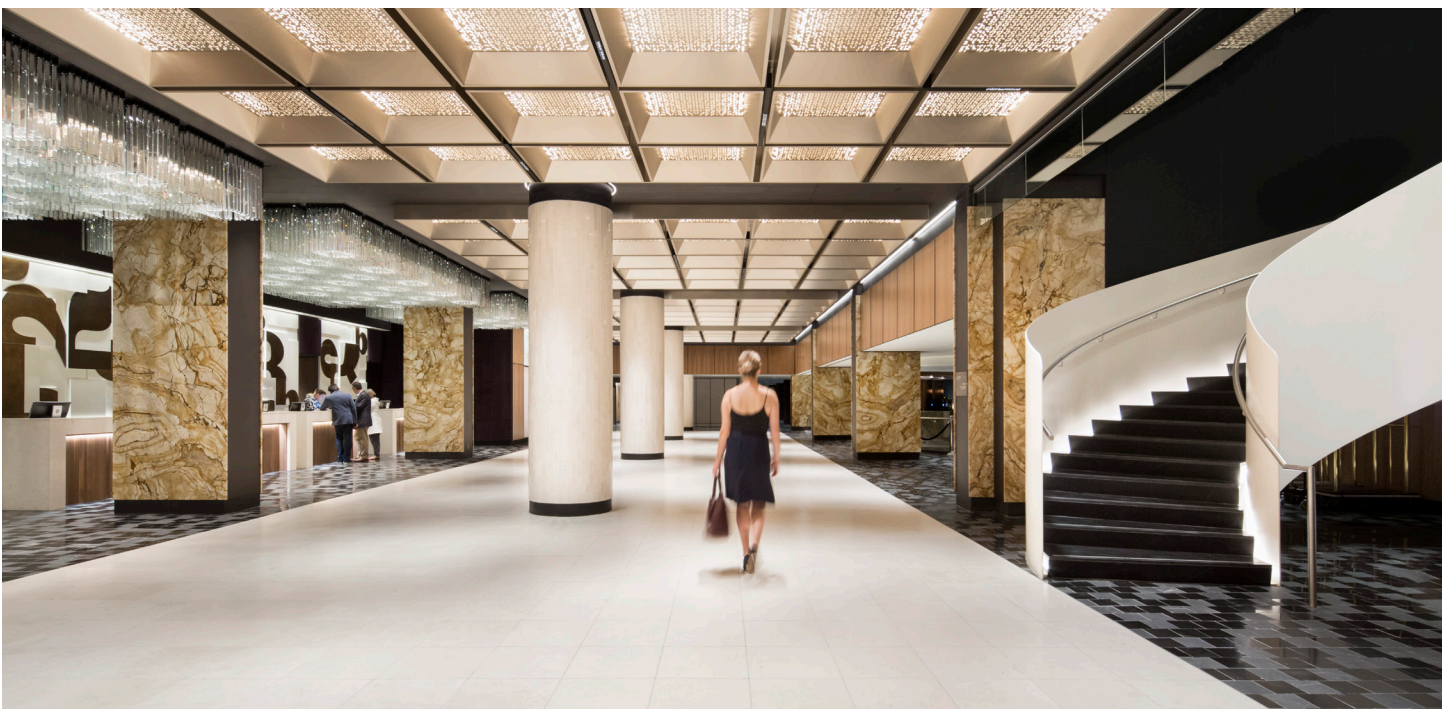

Founded in 2002 by Francois Roupinian, Lightemotion is an independent lighting design consultancy that combines outstanding lighting design with technical excellence. It is not a coincidence that the origins of Lightemotion are in the performing arts, a realm that requires a diverse artistic sensibility and provided the Lightemotion design team with a great source of inspiration and an opportunity to hone their technical skills.

Lightemotion has evolved rapidly, and has completed numerous high-profile architectural projects around the world. This body of work reflects the international backgrounds of our team, comprised of lighting and theatre designers, lighting engineers, interior architects and marketing experts. We excel in collaborating closely with architects, interior designers, electrical engineers and their clients to facilitate the best solutions for every project. This methodology ensures we achieve our clients' design and business objectives through the creation of lighting schemes that push the boundaries of creativity, while also delivering cost effectiveness and environmental sustainability.

OUR PROCESS  
WE THINK LIKE DESIGNERS,  
WE LISTEN LIKE EXPERTS

Listening is one of the single most important elements in the execution of successful projects. We pride ourselves on our expert listening skills, when collaborating with clients, colleagues and allied professionals, to ensure we tailor each project to meet their design and business objectives. We are keen observers of the world around us, and take a holistic 360-degree approach to the design of lighting. We employ a wide range of reference points in our rigorous process, which draws from history, nature, culture and the latest technology. Our process includes:

- Project Inception & Lighting Strategy
- Design Concept
- Schematic Design
- Design Development
- Construction, Tender Documents & Procurement Support
- Administration & Commissioning

**OUR SERVICES  
COMPREHENSIVE IN SCOPE,  
FOCUSSED ON RESULTS**

We understand lighting, and how architects and designers think. We know how to bring these two fundamental components together to create a plan that exceeds clients' expectations. Whether it is an interior or an exterior project, Lightemotion offers design services in a broad range of sectors, including cultural, retail, institutional/commercial and hospitality. Our scope also pushes the boundaries of "classic lighting design services" to encompass master planning, sustainability analysis, custom fixture design and daylighting studies. We also conduct research into innovative techniques and materials in our on-site lighting lab.

We offer a complete range of consultancy services, including:

- Lighting design concepts & feasibility studies
- Research & development
- Photometric analysis
- Plans, details & specifications
- Custom and specialty fixture design
- Historical lighting restoration and integration
- Digital imagery & 3D renderings
- Project management & site coordination
- Programming of lighting control systems & commissioning
- Lighting energy efficiency assessment

Our sole focus is to achieve the best possible lighting design for our clients – in terms of aesthetics, function, flexibility, sustainability, maintenance and cost.

GLOBAL PROJECTS  
 PAIRED WITH LOCAL INSIGHT

Our projects are as diverse as our clients, and our clients span the globe. We have integrated new lighting into a history museum in New Zealand, illuminated luxury resorts in Atlantic City, made a luxury jewelry retailer sparkle in Toronto, collaborated on major cultural institutions in Singapore and enlivened public spaces in Montreal. Our signature is applying leading-edge technologies to sophisticated design solutions that are sensitive to the local culture and respectful of all the necessary technical, environmental and practical requirements. We thrive on creating a unique atmosphere, bringing out the beauty of the design, and making our clients' projects shine.

Selected clients include: Agence NC, Maison Christian Dior, La Fondation pour l'Art Cartier, Google, IN Studio, GH+A Design, Ivanhoe Cambridge, Fairmont Hotels, HOK architects, NORR architects, GSMRJCT, Perkins + Will, HUMA design, Diamond and Schmitt Architects, Figure3, Sid Lee Architecture, Dialog Architect, Partisans, Aedifica, Cirque du Soleil, MSDL Architects, Provencher Roy, IBI Group, Lemay Michaud Architects and Scenoplus.
